## Artist Application for 2012 ERRA Rain Barrel Auction

Artist Name:

---

Address:

---

City:

---

State:

Zip code:

---

Phone:

---

e-mail:

---

### Timeline:

A completed application must be received by January 3, 2012 to be considered for the June 1, 2012 Auction.

An ERRA committee will review each application and select the barrels that will be offered at the auction. The artists selected to create barrels will be notified by January 18, 2012.

Barrels will be available to be picked up on January 21, 2012. The selected artists are responsible to pick up their barrel. Included with the barrel will be hints on how to properly clean and prime the barrel.

All artists selected for the auction will be required to sign a barrel agreement when picking up their barrels.

Barrels MUST be delivered by the artist to [TBD] by April 1, 2012 for clear coating. ERRA will be responsible to get the barrel to the auction.

### Design Submission

ERRA has used more than twelve different talented artists for rain barrel auctions in the last three years. We are switching to this review format to give more aspiring artists an opportunity to paint a barrel for the auction.

Each artist is allowed to submit a maximum of three barrel designs. If submitting multiple designs, copy page two of this application and complete it for each submission. Only one barrel design per artist may be selected for the auction by the ERRA selection committee.

Mail the completed application so it is received by January 3, 2011 to:
